

OSA-2099-63

6 MAY 1963

MEMORANDUM FOR THE RECORD

SUBJECT: C-130B Crew

25X1A

1. I have been informed by [redacted] MMPD Manning Branch, that his contact in HQUSAF/Pers has stated that one of the reasons for problems in obtaining nominations for the C-130B crew is that the B series is being phased out and that primary AFSC's are now in the D and E category. If this is true, it is obvious that we will increase the source for nominees if we drop or change the B suffix on our requisitions wherever this is possible.

25X1A

2. [redacted] Materiel/OSA, has agreed to drop the B suffix for the flight engineers on the maintenance side of the house. In connection with the pilots and navigators, [redacted] agreed to add the suffixes D and E to the requisitions.
